Members are requested to support our commitment to environmental protection by choosing to receive the Company’s communications through e-mail going forward.

Members may note that the Notice and Annual Report 2022-23 will also be available on the Company’s website www.rathisteelandpower.com, websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com and on the website of NSDL <https://www.evoting.nsdl.com>.
19. In case a person has become a member of the Company after dispatch of the AGM Notice, but on or before the cur-off date for e-voting i.e. Friday, September 22, 2023, such person may obtain the User ID and Password from RTA by e-mail request on investor@masserv.com
20. With a view to helping us serve the members better, members who hold shares in identical names and in the same order of names in more than one folio are requested to write to the Company to consolidate their holdings in one folio.
21. In terms of Section 72 of the Companies Act, 2013 and the applicable provisions, the shareholders of the Company may nominate a person in whose name the shares held by him/them shall vest in the event of his/their death. Shareholders desirous of availing this facility may submit the requisite nomination form.
22. Shareholders of the Company are informed that pursuant to the provisions of the Act and the relevant rules the amount of dividend which remains unpaid/unclaimed for a period of 7 years is transferred to the ‘Investor Education & Protection Fund (IEPF)’ constituted by the Central Govt. Accordingly the amount of dividend which remained unpaid/unclaimed for a period of 7 years i.e., for the year upto 2014-15 has already been transferred to IEPF.

Further, pursuant to the provisions of Section 124(6) of the Act read with the relevant Rules made thereunder, shares on which dividend has not been paid or claimed for seven (7) consecutive years or more shall be transferred to the IEPF as notified by the Ministry of Corporate Affairs.

The Members whose dividend/shares are transferred to the IEPF may claim the dividend/shares by making an application to the IEPF by following the procedure as detailed in the IEPF Rules and as enumerated on the website of IEPF at <http://www.iepf.gov.in/IEPF/refund.html>.

23. In terms of SEBI Circular dated 09/12/2020, the depository shall send SMS/email alerts regarding the details of the upcoming AGM to the demat holders at least 2 days prior to the date of commencement of e-voting. Hence members are requested to update the mobile no./email ID with their respective depository participants.
24. SEBI has made it mandatory for all Companies to use the bank account details furnished by the Depositories and the bank account details maintained by the RTA for payment of dividend to Members electronically. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through Electronic Clearing Service (ECS)/National Electronic Clearing Service (NECS)/ Real Time Gross Settlement (RTGS) / Direct Credit / NEFT etc. In the absence of ECS facilities, the Company will print the bank account details if available, on the payment instrument for distribution of dividend.

In order to receive the dividend without loss of time, the Members holding shares in physical form are requested to submit particulars of their bank accounts along with the original cancelled cheque bearing the name of the Member to the RTA, MAS Services Limited/Company to update their bank account details and all the eligible shareholders holding shares in demat mode are requested to update with their respective DPs, their correct Bank Account Number, including 9 Digit MICR Code and 11 digit IFSC Code, e-mail ID and Mobile No(s).

Members holding shares in physical form may communicate these details to the RTA viz. MAS Services Limited having address at RTA i.e. **MAS Services Limited, having address at T-34 2nd Floor, Okhla Industrial Area, Phase-II, New Delhi 110020**, by quoting the reference folio number and attaching photocopy of the cheque leaf of their active bank account and a self-attested copy of their Permanent Account Number ('PAN') card.

This will facilitate the remittance of the dividend amount as directed by SEBI in the bank account electronically. Updation of e-mail IDs and Mobile No(s) will enable the Company in sending communication relating to credit of dividend, un-encashed dividend, etc.

The Company or RTA cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the DPs of the Members.

25. Pursuant to Finance Act, 2020, dividend income will be taxable at the hands of shareholders w.e.f. 1st April, 2020 and the Company is required to deduct tax at source from dividend paid to members at prescribed rates. For the prescribed rates for various categories the members are requested to refer to the Finance Act, 2020 and amendments thereto. The members are requested to update their PAN with Registrar and Transfer Agents (in case of shares held in physical mode) and depository participants (in case shares held in demat mode). However, no tax shall be deducted on the dividend payable to a resident individual shareholder if the total dividend to be received during FY 22-23 does not exceed Rs.5,000/-.

A resident individual shareholder with PAN who is not liable to pay income tax submit a yearly declaration in Form 15G/15H, to avail the benefit of non-deduction of tax at Company's RTA at investor@masserv.com. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

26. The documents referred to in the proposed resolutions are available for inspection at its Registered Office of the Company during normal business hours on any working day except Saturdays, upto the date of meeting.
27. Instructions for e-voting and joining the AGM are as follows:

4. ECONOMIC SCENARIO AND OUTLOOK

GLOBAL SCENARIO

The World Steel Association (worldsteel) has released its Short Range Outlook (SRO) steel demand forecast for 2023 and 2024. Worldsteel forecasts that this year, demand will see a 2.3% rebound to reach 1,822.3 Mt. Steel demand is forecast to grow by 1.7% in 2024 to reach 1,854.0 Mt. Manufacturing is expected to lead the recovery, but high interest rates will continue to weigh on steel demand. Next year, growth is expected to accelerate in most regions, but deceleration is expected in China.

Global steel demand seen growing 1.7% in 2024 - association

Global steel demand is expected to grow by 1.7% in 2024 following a forecast 2.3% rebound in consumption this year mainly due to a recovery in manufacturing activity, an executive from the World Steel Association (WSA) said on Tuesday.

In the long run, the Association of Southeast Asian Nations (ASEAN) is expected to see a doubling in steel demand by 2035 from 80 million tonnes currently, Frank Zhong, the association's deputy director general told an industry conference.

Global steel demand seen rising 2.3% in 2023, 1.7% in 2024

India remains a bright spot in the sector as govt spending on infrastructure is strong, says World Steel Association

Demand for steel worldwide will witness a 2.3 per cent growth in 2023 and 1.7 per cent in 2024, the World Steel Association (worldsteel), a body with membership of every steel producing country, has said.

In its short range outlook released earlier this week, worldsteel said the demand will increase to 1,822 million tonnes (mt) in 2023 and 1,854 mt in 2024. The association pegged 2022 crude steel at 1,831.5 mt, down 4.3 per cent compared with 2021.

“Manufacturing is expected to lead the recovery, but high interest rates will continue to weigh on steel demand. Next year, growth is expected to accelerate in most regions, but deceleration is expected in China,” worldsteel said.

INDIAN SCENARIO

Steel industry outlook: Growth prospects of the Indian steel sector in 2023

Let us first look at what's driving the demand for steel metal in India. According to predictions by the World Steel Association, the steel industry growth rate is estimated to be around 6.7% in 2023. After a slack period following the pandemic, the sector was able to revive in 2021-22 with global demand for steel rising.

The growth prospects and steel industry outlook in India is favourable. Recent changes in export taxes and import duties on steel, complemented by the rising demand for affordable housing, infrastructure development and construction projects, has led to a pan-India need for steel metal. Moreover, the government's initiative to make India self-sufficient has made room for sustainable urban development, construction of proposed logistics parks and industrial corridors – all adding to the meteoric demand for finished steel and steel as a raw material.

The iron and steel industry naturally will play a dominant role in bringing progress. In the next section, let us take a look at what are the growth prospects of the steel sector, the present outlook and future prospects of steel in India, and the multiple factors supporting and contributing to it.

Budget 2023-24: Announcements for the steel sector

Every year, all eyes are on the Budget announcement for news on monetary incentives, rebates, funds allocation and more for the development of different sectors and businesses.

In Budget 2023-24, though there were no specific funds for driving growth of the steel sector, there are several opportunities present in other industries that would directly boost the steel industry outlook.

- **Railways:** The government's initiative to redevelop 50+ existing railway stations and the plan to provide a capital of ₹2.4 lakh crore to Railways is likely to scale the need for steel.
- **Logistics:** An investment of ₹75,000 crore is planned for 100+ critical transportation infrastructure projects that will connect ports, coal, steel, fertiliser, and food grain sectors across the first- and last-mile delivery network. This is expected to improve connectivity and transportation services across major points, in turn leading to a rise in demand for steel.
- **City development:** Urban planning development projects will be undertaken to transform cities into sustainable cities. With the proposed ₹10,000 crore annual fund, the goal is to ramp up infrastructure development, especially in Tier II and Tier III cities. This is likely to witness a growth in steel demand, especially for steel girders in infrastructure and TMT steel bars in construction among others.

(Source: Outlook, March 2023)

Steel pricing in India

An overview of steel pricing will show how steel metal has always had its demand in India. However, in the last few months, especially following the global economic crisis caused by the pandemic, the price of steel in India has been dynamic. In February 2023, there was a 5% increase in steel prices in India.

Multiple factors, including rise of raw material prices (especially iron ore and coking coal) and rise in infrastructural and engineering projects, has impacted daily steel price. It is however predicted that steel prices will be above the pre-pandemic rates, i.e., ₹60,000 per tonne by March 2023.

5. REVIVAL /SETTLEMENT/RESTRUCTURING WITH LENDERS

In the FY 20-21 Company has entered into settlement agreement with lenders for majority of its debt. Thereafter in the FY 21-22 debt level was further brought down through sale of Orissa unit. In the interest of all its stakeholders and for long term revival of the Company, efforts are being made to further bring down the debt to sustainable level. With continuous efforts during the FY 22-23, Company has entered into settlement/successfully implemented the settlement with banks .

Company is making all efforts to further bring down the debt in the interest of all stakeholders.

6. MATERIAL CHANGES AND FINANCIAL COMMITMENTS.

Apart from the information provided/disclosures made elsewhere in the Directors' Report including Annexures thereof, there are no material changes and commitments affecting the financial position of the Company, which occurred between the end of the financial year of the Company i.e. 31st March, 2023 to which this financial statement relates and till date of this Report.

7. PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS

Full particulars of the loans given, guarantees extended or securities provided and the investments made by the Company, if any, in various bodies corporate in terms of the provisions of Section 186 of the Companies Act, 2013 and the rules framed thereunder have been adequately described in the notes to Financial Statements. The same are in consonance the provisions of the aforesaid section.

8. CORPORATE SOCIAL RESPONSIBILITY

Even though the provisions of Companies Act, 2013 regarding Corporate Social Responsibility are not attracted to the company yet the Company has been, over the years, pursuing as part of its corporate philosophy, an unwritten CSR policy voluntarily which goes much beyond mere philanthropic gestures and integrates interest, welfare and aspirations of the community with those of the Company itself in an environment of partnership for inclusive development

9. RISK MANAGEMENT POLICY

Risk management policy of the Company promotes a proactive approach in reporting, evaluating and mitigating risks associated with the business. Mechanisms for identification and prioritization of risks include business risk environment scanning and focused discussions in the Risk Management Group (at Senior Management Level).

10. INTERNAL FINANCIAL CONTROLS

Internal financial control systems of the Company are commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable accounting standards and relevant statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation and ensuring compliance of corporate policies. The Company has a well-defined delegation of power with authority limits for approving revenue as well as expenditure, both capital and revenue. The Company uses an established ERP system to record day to day transactions for accounting and financial reporting.

Annexure 4

PARTICULARS OF REMUNERATION

The information required under Section 197 of the Act and the Rules made there-under, in respect of employees of the Company, is follows:

- (a) **The ratio of the remuneration of each director to the median remuneration of the employee (K.M.P.'s) of the Company for the financial year:**

Directors	Ratio to median Remuneration
Sh. Prem Narain Varshney	0.92
Sh. Abhishek Verma	N.A.

Directors	Ratio to median Remuneration
Smt. Pinky Verma	N.A.
Smt Sangeeta Pandey	N.A.

- (b) **The percentage increase in remuneration of each Director, Chief Executive officer, Chief Financial officer, Company Secretary or Manager, if any, in the financial year;**

Name of person	% increase in remuneration
Sh. Prem Narain Varshney	N.A.
Sh. Rakesh Kumar	N.A.
Smt. Shobhita Singh	N.A.

- (c) **The percentage increase in the median remuneration of employees in the financial year** – Looking at the previous losses of Company, there was no increment in this year except in few cases. In general, there is marginal increment in the remuneration of staff which is not based on %.
- (d) **The number of permanent employees on the rolls of company:** As on 31-03-2023 employees are 162. Further, the contractual labour were 14 as on 31-03-2023.
- (e) **The explanation on the relationship between average increase in remuneration and company performance:** Looking at the past losses of Company, there was no increment in this year except in few cases. In general, there is marginal increment in the remuneration of staff which is not based on percentage.
- (f) **Comparison of the remuneration of the Key Managerial Personnel against the Performance of the company:**

Particulars	Rs in Lacs
Remuneration of Key Managerial Personnel(KMP) during financial year 2022-23 (Aggregated)	9.79
Total Income	75756.98
Remuneration (as % of Total Income)	0.013%
Profit before tax (PBT)	8747.17
Remuneration (as % of PBT)	0.11%

- (g) Variation in the market capitalisation of the Company, price earnings ratio as at the closing date of the current financial year and previous financial year and percentage increase over decrease in the market quotations of the shares of the Company in comparison to the rate at which the Company came out with the last public offer in case of listed companies and in case of unlisted companies, the variations in the net worth of the Company as at the close of the current financial year and previous financial year;

The BSE had suspended the trading of Shares due to Non-Payment of Annual Listing Fees and other charges. With Sincere efforts, Company has already completed all the requirements including payment of Listing Fee and other charges which ultimately resultant into revocation of suspension in trading of Company's Shares with Bombay Stock Exchange (BSE) w.e.f. 3rd July 2023.

- (h) Marginal increment already made in the salaries of some employees other than managerial personnel in the last financial year and its comparison with marginal increase in the managerial remuneration and justification there of and point out if there are any exceptional circumstances for increase in the managerial remuneration.
- i) **Comparison of remuneration of each of the Key Managerial Personnel against the performance of the Company**

Particulars	MD	C.S.	CFO
	Rs/lac	Rs/lac	Rs/lac
Remuneration	2.76	3.00	4.03
Total Income	72756.98		
Remuneration (as % Revenue)	0.0038%	0.0041%	0.0055%

Remuneration (as % of PBT)	0.32%	0.034%	0.46%

- (j) The key parameters for any variable component of remuneration availed by the directors: NIL
- (k) The Ratio of the Remuneration of the highest paid Director to that of Employees who are not Directors but receive Remuneration in excess of the highest paid Director during the year: Disclosed
- (l) Affirmation that the remuneration is as per the remuneration policy of the company

The company's remuneration policy is driven by the success and performance of the individual employees and the Company. Individual performance pay is determined by business performance and the performance of the individuals measured through the annual appraisal process. The Company affirms remuneration is as per the remuneration policy of the company.

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL STEEL SCENARIO

The global iron and steel market size was valued at USD 1,538.72 billion in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 5.1% from 2022 to 2030. The market is anticipated to be driven by rising investments in the residential construction sector. The development of smart city projects across the globe is projected to remain a key factor in driving the aforementioned trend. According to the National Bureau of Statistics of China, in 2021, China's investment in residential construction was valued at USD 1747.2 million i.e., a 6.4% increase compared to the previous year. Moreover, the country has the world's largest buildings market, accounting for 20.0% of global construction investments. Furthermore, according to the 14th Five-Year Plan (2021-2025), the country is planning to increase its urbanization rate to 65.0% by 2025 as compared to 64.7% in 2021.

Rising automotive production, investments in construction, and infrastructure development are expected to propel market growth over the forecast period. According to the Federal Reserve, motor vehicles and parts production in the U.S. rose to 7.8% in March 2022 from 4.6% in February 2022. In March 2022, the total assemblies of light trucks and cars reached around 9.5 million vehicles from 8.3 million in February 2022.

Application Insights

The building and construction segment held the largest revenue share of more than 45.0% in 2021 and the trend is expected to continue over the forecast period. Rising investments in construction activities are expected to boost the demand for steel over the forecast period. For instance, in April 2022, Alliance Group, a leading real estate developer, announced to invest USD 1,125.8 million for its construction projects in Hyderabad, Chennai, and Bengaluru, India.

According to the American Iron and Steel Association, steel constitutes about 54% of an average vehicle. It is used for manufacturing various automotive parts such as door panels, chassis, frames, and support beams. Although aluminum is replacing steel due to its lightweight property, it is still preferred in automotive parts manufacturing owing to its durability, strength, and ability to be continuously recycled.

To reduce the dependency on aluminum, steel manufacturers are now investing in the production of advanced high-strength steel products, which enable car manufacturers to reduce vehicle weight by 35-40%. For instance, one of the largest steel manufacturers in the world, ArcelorMittal, has developed various advanced high-strength steel products such as Fortiform, Ductibor 1000, and Usibor 2000 to respond to the sudden shift toward lightweight automotive parts.

Steel is widely used in various heavy industries such as shipbuilding, defense products manufacturing, and oil and gas. Rising investments in these industries are expected to fuel market growth over the forecast period. For instance, in February 2022, the German government decided to invest USD 112.0 billion in military equipment manufacturing and is planning to allocate over 2% of the country's economic output to the defense sector annually.

Iron & Steel Industry in India

India's steel consumption is expected to grow by 7.5% in FY24, while the demand of steel is expected to be 128.9 MT.

One of the primary forces behind industrialization has been the use of metals. Steel has traditionally occupied a top spot among metals. Steel production and consumption are frequently seen as measures of a country's economic development because it is both a raw material and an intermediary product. Therefore, it would not be an exaggeration to argue that the steel sector has always been at the forefront of industrial progress and that it is the foundation of any economy. The Indian steel industry is classified into three categories - major producers, main producers and secondary producers.

As of December 2022, India was the world's second-largest producer of crude steel. In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. In April-November 2022, the production of crude steel and finished steel stood at 81.96 MT and 78.09 MT respectively. The growth in the Indian steel sector has been driven by the domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output.

The Indian steel industry is modern, with state-of-the-art steel mills. It has always strived for continuous modernisation of older plants and up-gradation to higher energy efficiency levels.

MARKET SIZE

In the past 10-12 years, India's steel sector has expanded significantly. Production has increased by 75% since 2008, while domestic steel demand has increased by almost 80%. The capacity for producing steel has grown concurrently, and the rise has been largely organic.

In FY22, the production of crude steel and finished steel stood at 133.596 MT and 120.01 MT, respectively. The consumption of finished steel stood at 105.751 MT in FY22. Between April-December 2022, India's finished steel consumption stood at 75.34 MT. In April-July 2022, the production of crude steel and finished steel stood at 40.95 MT and 38.55 MT respectively.

In FY23 (until January 2023), the exports of finished steel stood at 5.33 MT, while the imports stood at 5 MT. In FY22, exports and imports of finished steel stood at 13.49 MT and 4.67 MT, respectively. In FY22, India's export rose by 25.1% YoY, compared with 2021. In FY21, India exported 9.49 MT of finished steel. In December 2022 exports of finished steel stood at 4.42 lakh tonnes.

The annual production of steel is anticipated to exceed 300 million tonnes by 2030–2031. By 2030–31, crude steel production is projected to reach 255 million tonnes at 85% capacity utilisation achieving 230 million tonnes of finished steel production, assuming a 10% yield loss or a 90% conversion ratio for the conversion of raw steel to finished steel. With net exports of 24 million tonnes, consumption is expected to reach 206 million tonnes by the years 2030–1931. As a result, it is anticipated that per-person steel consumption will grow to 160 kg.

INVESTMENTS

The steel industry and its associated mining and metallurgy sectors have seen major investments and developments in the recent past.

According to the data released by the Department for Promotion of Industry and Internal Trade (DPIIT), between April 2000-December 2022, Indian metallurgical industries attracted FDI inflows of US\$ 17.22 billion.

In FY22, demand for steel was expected to increase by 17% to 110 million tonnes, driven by rising construction activities. Some of the major investments in the Indian steel industry are as follows:

- 67 applications from 30 companies have been selected under the Production Linked Incentive (PLI) Scheme for Specialty Steel. This will attract committed investment of Rs. 42,500 crore (US\$ 5.19 billion) with a downstream capacity addition of 26 million tonnes and employment generation potential of 70,000.
- In September 2022, Steel Authority of India Limited (SAIL), a Maharatna PSU, supplied 30,000 tonnes of the entire DMR grade specialty steel for the nation's first indigenously built Aircraft Carrier INS Vikrant.
- In August 2022, Tata Steel signed an MoU with Punjab Government to set up a steel scrap based electric arc furnace steel plant.
- In May 2022, Tata Steel announced a CAPEX of Rs. 12,000 crore (US\$ 1.50 billion).
- In October 2021, Tata Steel was planning to set up more scrap-based facilities that will have a capacity of at least a billion tonnes by 2025.
- In October 2021, JSW Steel invested Rs. 150 billion (US\$ 19.9 million) to build a steel plant in Jammu and Kashmir and boost manufacturing in the region.
- In October 2021, ArcelorMittal and Nippon Steel Corp.'s joint venture steel firm in India, announced a plan to expand its operations in the country by investing ~Rs. 1 trillion (US\$ 13.34 billion) over 10 years.
- In August 2021, Tata Steel announced to invest Rs. 8,000 crore (US\$ 1.08 billion) in capital expenditure to develop operations in India in FY22.
- In August 2021, ArcelorMittal announced to invest Rs. 1 lakh crore (US\$ 13.48 billion) in Gujarat for capacity expansion.
- In August 2021, Tata Steel announced to invest Rs. 3,000 crore (US\$ 404.46 million) in Jharkhand to expand capacities over the next three years.
- In August 2021, Jindal Steel & Power Ltd. announced plans to invest US\$ 2.4 billion to increase capacity over the next six years to meet the rising demand from customers.
- In the next three years from June 2021, JSW Steel is planning to invest Rs. 47,457 crore (US\$ 6.36 billion) to increase Vijayanagar's steel plant capacity by 5 MTPA and establish a mining infrastructure in Odisha.

GOVERNMENT INITIATIVES

Some of the other recent Government initiatives in this sector are as follows:

- In October 2021, the government announced guidelines for the approved specialty steel production-linked incentive (PLI) scheme.
- In October 2021, India and Russia signed an MoU to carry out R&D in the steel sector and produce coking coal (used in steel making).
- In July 2021, the Union Cabinet approved the production-linked incentive (PLI) scheme for specialty steel. The scheme is expected to attract investment worth ~Rs. 400 billion (US\$ 5.37 billion) and expand specialty steel capacity by 25 million tonnes (MT), to 42 MT in FY27, from 18 MT in FY21.
- In June 2021, Minister of Steel & Petroleum & Natural Gas, Mr. Dharmendra Pradhan addressed the webinar on 'Making Eastern India a manufacturing hub with respect to metallurgical industries', organised by the Indian Institute of Metals. In 2020, 'Mission Purvodaya' was launched to accelerate the development of the eastern states of India (Odisha, Jharkhand, Chhattisgarh, West Bengal and the northern part of Andhra Pradesh) through the establishment of an integrated steel hub in Kolkata, West Bengal. Eastern India has the potential to add >75% of the country's incremental steel capacity. It is expected that of the 300 MT capacity by 2030-31, >200 MT can come from this region alone.
- In June 2021, JSW Steel, CSIR-National Chemical Lab (NCL), Scottish Development International (SDI) and India H2 Alliance (IH2A) joined forces to commercialise hydrogen in the steel and cement sectors.
- Under the Union Budget 2023-24, the government allocated Rs. 70.15 crore (US\$ 8.6 million) to the Ministry of Steel.
- In addition, an investment of Rs. 75,000 crore (US\$ 9.15 billion) (including Rs. 15,000 crore (US\$ 1.83 billion) from private sources) has been allocated for 100 critical transport infrastructure projects for last and first mile connectivity for various sectors such as ports, coal, and steel.

- In January 2021, the Ministry of Steel, Government of India, signed a Memorandum of Cooperation (MoC) with the Ministry of Economy, Trade and Industry, Government of Japan, to boost the steel sector through joint activities under the framework of India–Japan Steel Dialogue.
- The Union Cabinet, Government of India approved the National Steel Policy (NSP) 2017, as it intends to create a globally competitive steel industry in India. NSP 2017 envisage 300 million tonnes (MT) steel-making capacity and 160 kgs per capita steel consumption by 2030-31.
- The Ministry of Steel is facilitating the setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs. 200 crore (US\$ 30 million).
- The Government of India raised import duty on most steel items twice, each time by 2.5% and imposed measures including anti-dumping and safeguard duties on iron and steel items.

Recent developments in the steel sector

The Ministry of Steel signed 57 MoUs with 27 companies for specialty steel under the PLI scheme (Production Linked Incentive). Under the scheme the government has approved a sum of ₹6322 crore for steel sector growth. Apart from creating new jobs and contributing to making India the 3rd largest economy globally (by 2030-31), the scheme aims to create an additional capacity of 25 MT of specialty steel in the next five years.

(Source: *IndiaCSR*)

- For focused production of value-added steel, collaboration between the 27 companies and the government is crucial
- Initiatives like Green Steel and Hydrogen Mission would enable low carbon emissions
- R&D, new product development, and best practices should be adopted across the steel sector

As can be seen from the recent events and Indian steel sector overview, there's a promising future for the steel sector in India.

5 reasons for growth of steel sector in India

With cities expanding, technological advent of Industry 4.0, and rise in construction and engineering projects, the meteoric rise of the steel industry is not unexpected. Today, there are different types of steel manufactured and used in India to cater to its rising demand. From the industry-wide use of steel coils to steel channels and steel alloys, there is a market ready for steel products everywhere.

An Indian steel industry overview analysis will identify the following as some of reasons for the growth of the steel sector in India:

- **Resource availability:** Though the cost of iron-ore has been on the rise in recent years, it is still one of the most widely available resources domestically. In addition to that, considering that the production of steel is a capital- and labour-intensive process, labour is also available economically. This naturally has helped to balance steel production costs.
- **Industry-wide application:** Steel and steel products have its uses across multiple industries – shipbuilding, automotive, pharmaceutical, aviation, real estate, energy, home appliances, electronics etc. Whether it's using corrugated sheets in roofing or using TMT bars in buildings for safety against natural disasters, the use of steel as a raw material is visible across all industries.
- **Longevity of steel metal:** Steel as a metal has longevity. For instance, stainless steel used in making cutlery lasts longer than glass. Steel is also low on maintenance. TMT bars used in housing construction projects can stand for years unlike wood or other raw material used. Moreover, based on its composition and type, steel is strong, ductile, can bear heavy load, is corrosion and heat resistant – in short, it's more cost-effective and value-for-money than other raw materials. Recycling of steel is also possible which makes it a preferred raw material in industries, adding to its growing demand.
- **Government initiatives:** As stated previously, the government has introduced several initiatives to boost steel production in India and reach 300 MT in production by 2030. It has removed the 15% export taxes, and working towards removing technology, logistics and infrastructure bottlenecks.
- **Ease of purchase:** Technology has made buying and selling of steel and steel products easier today. Buyers can buy steel online through reliable steel marketplaces and online websites, in a secure, transparent, and quick manner.

Summing up: Overview of the steel sector in India

A ₹10 lakh crore capital expenditure plan was announced. The goal of this plan is to focus on domestically produced steel to make the nation self-reliant. The plan would also position India as a leading manufacturing hub and gradually scale the steel sector's contribution to India's GDP from its current 2% to 5%. (Source: *IndiaCSR*)

As a raw material, the demand for steel has been steadily rising. Though there are often concerns about price hike and environmental factor, the benefits and applications of the metal are too many.

Future outlook of your Company

Your Company plans to optimize / augment production of value-added steel. Your Company has taken steps to undertake debottlenecking activities, augment shares of value-added steel and initiate work to add downstream facilities in the stainless steel division.

For TMT bars segment, talks have been initiated to explore possibilities of securing raw material supplies to make higher / better grade of finished products. Having said the above, your Company does expect challenges from various external factors like imposition of export duty, various geopolitical disturbances and recessionary trends in the western countries. These challenges are expected to hit the margins in the short / medium term, through the domestic consumption scenario does seem reasonable.

OPPORTUNITIES AND RISKS

OPPORTUNITIES

The Company continues to adapt to the ever changing business environment to take advantage of the opportunities to deliver sustainable value for all its stakeholders. With increasing migration, newer centres of development and government programmes such as the Smart City Mission, the rate of urbanisation in India is expected to rise significantly in the near future. A young demography tends to propel demand for housing, transportation and public infrastructure. Despite a significantly growing urban population, India's per capita steel consumption is considerably low compared to China and other Developed Countries. This clearly shows that there is significant headroom for consumption growth. The Company expects to take advantage of the growth opportunity provided by the Indian economy, by enhancing its steel producing capacity. The Company expects the demand for steel products to be strong in the developing economies and the Company proposes to utilize it to meet this increased demand.

RISKS

The Company is exposed to risks arising out of the dynamic macro-economic environment as well as from internal business drivers. These could adversely impact its ability to create value over the short, medium and long-term. The key risks and Company's mitigation plans are given below:

1. Macroeconomic risks

Overcapacity and oversupply in the global steel industry and high levels of imports may negatively affect steel prices and demand thereby reducing the Company's profitability. Developments in the competitive environment in the steel industry, such as consolidation among the Company's competitors, could have a material adverse effect on the Company's competitive position. This could potentially impact the Company's business, financial condition, results of operations and future prospects. Any downgrading of India's sovereign rating by independent agency (ies) may harm the Company's ability to raise finance.

2. Financial risks

The Company has substantial amount of debt, which may adversely affect its cash flow and its ability to operate the business. Any changes in assumptions underlying the carrying value of certain assets, including as a result of adverse market conditions, could result in impairment of such assets.

3. Regulatory risks

The Company faces regulatory risk from predatory pricing and surge in steel imports. The Company may benefit from certain protective trade restrictions, including anti-dumping laws, countervailing duties and tariffs, which if not available, may adversely affect its operations and financial condition. The Company's business could be affected by potential regulatory and judicial actions.

4. Operational risks

The industry is highly cyclical and a decrease in steel prices may adversely impact its financial condition. The Company's operations and financial condition could be adversely affected if it is unable to successfully implement its growth strategies. The Company's business is prone to high proportion of fixed costs and volatility in the prices of raw materials and energy. Mismatches between trends in prices of raw materials and steel, as well as limitations on or disruptions in the supply of raw materials, could adversely affect its profitability.

5. Market related risks

Competition from other materials, or changes in the products or manufacturing processes of the Company's customers who use steel products, could reduce market prices and demand for the Company's products, thereby reducing its cash flow and profitability. Product liability claims may adversely affect the Company's operations and finance.

6. People risk

The Company's success depends on the continued services of its senior management team and business and prospects could suffer if it loses one or more key personnel or if it is unable to attract and retain its employees. Any labour unrest could adversely affect the Company's operations and financial condition.

The Company's mitigation strategies are enumerated as under:

The macroeconomic and market related risks are addressed through diversification of the Company's product portfolio and development of value added products.

The Company works with policy makers to curb predatory pricing and surge in steel imports to create a level playing field. The operational risks are mitigated through development of well-structured processes for effective project planning & management.

To mitigate the risk of climate change and to be sustainable, the Company is focusing on innovative technologies that can significantly lower emissions

Risk & Concerns

The Company on regular basis reviews its Risk Management Policy and takes proactive steps to safeguard and minimize any adversity related to the Market, Technology, People, Environment/Regulatory, Financial and Opportunity Risks. Wherever necessary, the Company takes adequate insurance coverage of its assets for safeguarding from unforeseen risks.

Internal Control System and their adequacy

The Company has adequate internal control system and well laid-down policies and procedures for all its operations and financial functions. The procedures are aligned to provide assurance for maintaining proper accounting controls, monitoring efficient and proper usage of all its assets and reliability of financial and operational reports. The internal control system is ably supported by the Internal Audit Department which carries out extensive audit of various functions throughout the Company. The Company's Board has an Audit Committee which comprises of three members, all of whom are Independent Directors. The Audit Committee reviews significant findings of the internal audit.

Financial Performance

During the year under review, the Company has achieved revenue from operation of Rs 54251.63 Lacs as against previous year of Rs. 42429.66 Lacs. During the third quarter of the current financial year, M/s Assets Care and Restructuring Enterprise Ltd has sold the Company's mortgaged assets (Land, Building and structures, movable/immovable Plant and Machinery, furniture and fittings and other assets etc.) at Orissa unit for Rs.90.00 Crores. During the current year, Company has incurred loss of Rs. 3648.86 Lacs (including exceptional loss/Profit of Rs. 4111.35 Lacs towards Odisha Sale Unit/OTS). Company expects to do better if there is an improvement in overall industrial scenario.

Human Resources and Industrial Relation

The Company takes pride in the commitment, competence and dedication shown by its employees in all areas of business. Various Human Resource initiatives are taken to align the HR Policies to the growing requirements of the business.

The Company has a structured induction process and management development programmes to upgrade skills of managers. Technical and safety training programmes are given periodically to workers.

Industrial relations in the organization continued to be cordial during the year under review.

INDEPENDENT AUDITORS' REPORT
To the Members of M/s. RATHI STEEL AND POWER LIMITED

Opinion

We have audited the accompanying standalone financial statements of M/s. RATHI STEEL AND POWER LIMITED ('the company'), which comprise the balance sheet as at 31st March 2023, the statement of profit and loss (including Other Comprehensive Income) and the Statement of Cash Flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st, 2023, the Profit, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Emphasis of the Matter

During the period under report Company has entered into debt restructuring agreement with M/s Assets Care and Restructuring Enterprises Ltd (ACRE), effective from 01-04-2022, in respect of debt assigned by JM Financial Asset Reconstruction Company Private Limited (The Karur Vysya Bank Ltd). The Company has also concluded the OTS (one-time settlement) entered into with Union Bank (erstwhile Corporation Bank Ltd), by adhering and paying the settled amount in full. Further, the company has entered into a OTS (one-time settlement) with Canara Bank and is confident of concluding / implementing the same as per mutually agreed terms with the bank. The said settlement has been made keeping in mind, the interest of all stakeholders, without admission of any liability.

The effect of reduction of such liabilities are represented in the respective financial statements under the head Reserves and Surplus, extra-ordinary item in the Profit and loss account. To that extent, financial statements for the current / previous year has been recasted, regrouped and rearranged wherever necessary. The restructured portion of loan are shown as per the terms of restructuring and amount payable within one year is classified as current liabilities.

However, in case debt restructuring with respect to assigned loans to M/s Assets Care and Restructuring Enterprises Ltd (ACRE) and Canara Bank (OTS) agreement is terminated in accordance with terms of agreement / OTS, the Lenders shall have a right to revoke the relief and concessions provided in the Restructured / settlement agreements / sanction. Contingent liability in case of such default has not been provided for as the Company is confident of meeting its commitment as per restructuring agreement.

Considering the above measures and efforts being made by the management for long term revival of debt, these financial statements have been prepared on a going concern basis on the strength of continued support of the promoters, bankers / other lenders and signs of recovery in general economic scenario.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management of Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management of Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identifies and assesses the risks of material misstatement of the entity's financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, under section 143(3)(i) of the companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
4. Concludes on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
5. Evaluates the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation
6. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that the auditor identifies during the audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on the auditor's independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in the auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, the auditor determines that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 'A' statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

**Annexure-B to the Independent Auditors' Report, the Annexure referred to in our Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31st March 2023, we report that: -
Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013.**

We have audited the internal financial controls over financial reporting of Rathi Steel and Power Limited ("the Company") as of 31st March, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Companies Act 2013 ("the Act")

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standard on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ACAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all, material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provided reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of the changes in the conditions, or that the degree of compliance with the policies if procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on audit of Internal Financial Controls Over Financial Reporting issued by ICAI.

1. COMPANY INFORMATION

Rathi Steel And Power Limited (the Company) is a public limited company incorporated in 1971 and engaged in the business of Steel and Steel related products.

2. SIGNIFICANT ACCOUNTING POLICIES

a) **Basis of Preparation of Financial Statements:**

The financial statements of the company have been prepared in accordance with the Indian Accounting standards (Ind AS) notified under the companies (Accounting Standards) Rules 2015 and Companies (Accounting Standards) Rules 2016, the provisions of Companies Act, 2013, and guidelines issued by the securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in Indian Rupees (INR) Amount.

All amounts disclosed in the financial statements have been rounded off to the nearest rupees as required, unless otherwise stated.

b) **Use of Estimates:**

The preparation of the financial statements is in conformity with Ind AS requires Management to make estimates, judgments and assumptions. The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenues and expenses during reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

c) **Critical accounting judgments, assumptions and key sources of estimation and uncertainty**

The preparation of the financial statements in conformity with the measurement principle of Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and estimates are recognized in the year in which the results are known / materialized and, if material, their effects are disclosed in the notes to the financial statements.

In particular, following are the significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in standalone financial statements:

Assessment of useful life of property, plant and equipment and intangible asset-refer note **no j** below.

Significant judgment is required in determination of taxability of certain income and deductibility of certain expenses during the estimation of the provision for income taxes.

Claims are accounted for on determination of certainty of realization thereof.

Estimation of uncertainty related to Global Health Pandemic from COVID-19: The Company has considered the possible effects that may result from pandemic relating to COVID-19 on the carrying amount of financial assets including Trade receivable. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of the pandemic, the Company as at the date of approval of these financial statement has used internal and external source of information, on the expected future performance of the Company and based on estimates the Company expects that the carrying amount of financial assets will be recovered and the Company do not expect any significant impact of COVID-19 on the Company's financial statements as at the date of approval of these Standalone Financial Statements.

Impairment allowances for on trade receivables: The Company evaluates whether there is any objective evidence that trade receivables are impaired and determines the amount of impairment allowance as a result of the inability of the customers to make required payments. The Company bases the estimates on the ageing of the trade receivables balance, credit-worthiness of the trade receivables and historical write-off experience.

Provisions and Contingencies

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgement to existing facts and circumstances, which can be subject to change. Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations/ against the Company as it is not possible to predict the outcome of pending matters with accuracy. The carrying amounts of provisions and liabilities and estimation for contingencies are reviewed regularly and revised to take account of changing facts and circumstances.

d) **Current v/s non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The Company has deemed its operating cycle as twelve months for the purpose of current / noncurrent classification.

e) Revenue Recognition

Revenue is measured at the fair value of consideration received or receivable.

The Company recognizes revenue from sale of goods when it satisfies a performance obligation in accordance with the provisions of contract with the customer. This is achieved when it no longer retains control over the goods sold, the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Sale of goods and services is recognized net of taxes collected on behalf of third parties.

The performance obligation in case of sale of goods is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate ('EIR') applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that asset's net carrying amount on initial recognition.

Dividend income is accounted for on receipt of payment.

Job Charges / Conversion charges received are recognized at net of taxes and reported under revenue from services.

Insurance Claim is accrued in the year when the right to receive is established and is recognized to the extent there is no uncertainty about its ultimate collection.

f) Impairment of non-financial assets

At each Balance Sheet date, the Company assesses whether there is an indication that an asset may be impaired and also whether there is an indication of reversal of impairment loss recognized in the previous periods. If any indication exists or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

An asset's recoverable amount is the higher of an asset or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

g) Impairment of Financial Assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

h) Inventories:

Inventories are valued at lower of cost and net realizable value. Cost of inventories is determined on weighted average basis and comprises of expenditure incurred in the normal course of business in bringing such inventories to their location and includes, where applicable appropriate overheads.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventory of Coal have been segregated according to usability at the time of physical verification and are stated at Cost or market price whichever is less.

i) Cash and cash Equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits, which are subject to insignificant risk of changes in value.

For the purpose of statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above as they are considered as an integral part of the Company's cash management.

Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

j) PROPERTY, PLANT AND EQUIPMENT

Leasehold land has been revalued as on 31st March, 1992. All other property, plant and equipment are stated at cost, net of recoverable taxes, trade discounts and rebates less accumulated depreciation and impairment loss, if any.

The cost of tangible assets comprises its purchase price, borrowing cost, Trial run Costs, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, initial estimation of any decommissioning obligations and finance cost.

When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company derecognizes the replaced part and recognizes the new part with its own associated useful life and depreciated accordingly.

Stores and spares which meet the definition of property, plant and equipment and satisfy recognition criteria of Ind AS 16 are capitalized as property, plant and equipment.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit and Loss when the asset is derecognized.

Capital work-in-progress includes cost of property, plant and equipment which are not ready for their intended use.

The residual values and useful lives of property, plant and equipment are reviewed at each financial year-end and changes, if any, are accounted prospectively.

Depreciation on the property, plant and equipment is provided over the useful life of assets as specified in Schedule II to the Companies Act, 2013 using straight line method. Property, plant and equipment which are added/disposed of during the year, depreciation is provided on pro rata basis with reference to the month of addition/deletion.

k) Investments

Trade Investments are the investments meant to enhance the company's interest. Investments are classified as current or non-current based on the management's intention at the time of investment. Long-term investments are stated at cost. Provision for diminution in the value of long-term investment is made only if such a decline is permanent in nature.

l) Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged revenue.

m) Current Tax and Deferred Tax:

Current Tax is the amount of tax payable on the taxable income for the year, determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and their corresponding tax bases. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences and unused tax losses being carried forward, to the extent that it is probable that taxable profits will be available in future against which those deductible temporary differences and tax losses can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill. In view of continuous losses incurred in previous years, company has not calculated deferred tax.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

n) Retirement benefits

Actual liability for gratuity is provided in respect of eligible employees. Other employees' benefits are accounted for as per Company's policy.

o) Foreign exchange transactions

Foreign currency transactions are accounted for at the exchange rate prevailing on the date of the transaction. All monetary foreign currency assets and liabilities are converted at the exchange rates prevailing at the reporting date. All exchange differences arising on translation of monetary items are dealt with in the Statement of Profit and Loss.

p) Accounting for Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is disclosed when:

- (a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- (b) a present obligation that arises from past events but is not recognized because:
 - (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - (ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is disclosed, when there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent liabilities and assets are not recognized but are disclosed in notes.
